

TouchCenter

In Touch With Your *Lifestyle*

Your **One-Touch** Security Solution.

Introducing —
TouchCenter — *the most sophisticated, exciting new advance in security and home control.*

A blend of head-turning style and sophisticated technology, the state-of-the-art touchscreen keypad makes security system operation easier than ever—with graphics and simple prompts guiding you every step of the way. By just touching the graphics on the intuitive, easy-to-read touchscreen display, you can conduct a variety of everyday tasks with unprecedented ease.

For the ultimate in convenience, comfort and control, count on the Honeywell TouchCenter. Its intelligent design lets you add real security to your home and enjoy lifestyle-enhancing benefits you won't find anywhere else. No other security system keypad can touch it!

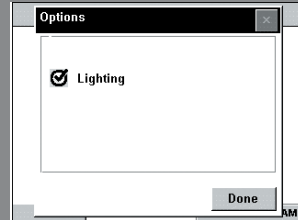

Security Made Simple

Whether arming or disarming your system, bypassing zones or controlling lights, TouchCenter makes operation crystal clear, with no complicated commands to remember or blinking lights to interpret. Even the most advanced security system functions are simple, because TouchCenter's menu-driven prompts walk you through them step by step.

Message Center

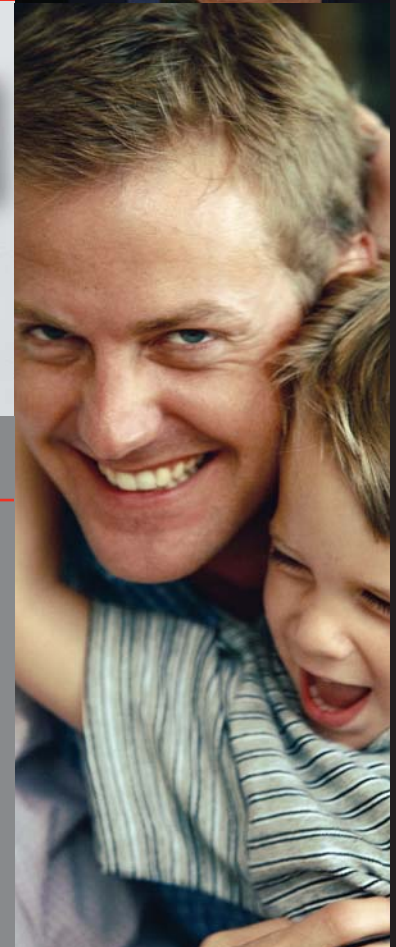

Customized Control

TouchCenter lets you enjoy the comforts of home by providing centralized, fingertip control of lighting, appliances, garage doors and more. You'll have the peace of mind from knowing that your home and family are safe and secure while enjoying the comforts of your home.

Keeping You in Touch

For hassle-free family communication, the built-in message center is a great way to keep you in touch. Ideal for busy households, this valuable feature lets family members record and playback voice memos for one another.

Event Log

A press on the touchscreen is all it takes to access TouchCenter's event log, which conveniently stores the most recent actions involving system use. Now you can quickly and easily:

- Keep tabs on family members (e.g., checking if your children have armed the system upon returning home from school).
- Track when workers and temporary guests use the system.
- View when the system was used and who used it.
