

A new level of protection for your family and your home.

Protection without limits. Technology without wires. ADEMCO brings them home to you, with innovative smoke detectors that can be mounted without drilling or running wires.

Wireless Smoke Detectors

Innovative smoke detector technology now provides wireless protection for your family and property.

Keeping your family safe through advanced technology

Because our smoke detectors and heat sensors require no invasive wiring or structural alteration, they can be installed easily in the optimum location for the best protection of your home. These products give a whole new level of security for your family and property.

ADEMCO
GROUP

Since our founding nearly 70 years ago, the ADEMCO Group has helped shape the security industry. As the world's largest designer and manufacturer of electronic security systems, ADEMCO produces over 1,500 different products. We protect 15 million homes, businesses, museums and government buildings. With ADEMCO, you've selected the finest security solutions in the world to protect your home.

Designed for your safety

Wireless Smoke Detector

- Features advanced wireless security technology
- Offers maximum protection for any room
- Complements decor with low profile design
- Mounts easily on ceiling or wall

Wireless Rate-of-Rise Heat Sensor

- Offers double protection: trips at 135°F or when temperature rises 15°F or more per minute
- Provides ideal solution for your kitchen, because it won't alarm due to smoke
- Mounts on a wall or ceiling – even cathedral ceilings
- Uses readily-available lithium battery

Built to meet the highest standards in the industry

This product is ISO-9001 certified, an international standard of quality. In addition, the wireless smoke detector and rate-of-rise heat sensor meet ADEMCO's rigorous standards of proven performance, reliability and cost-effectiveness.
